STEP ONE:

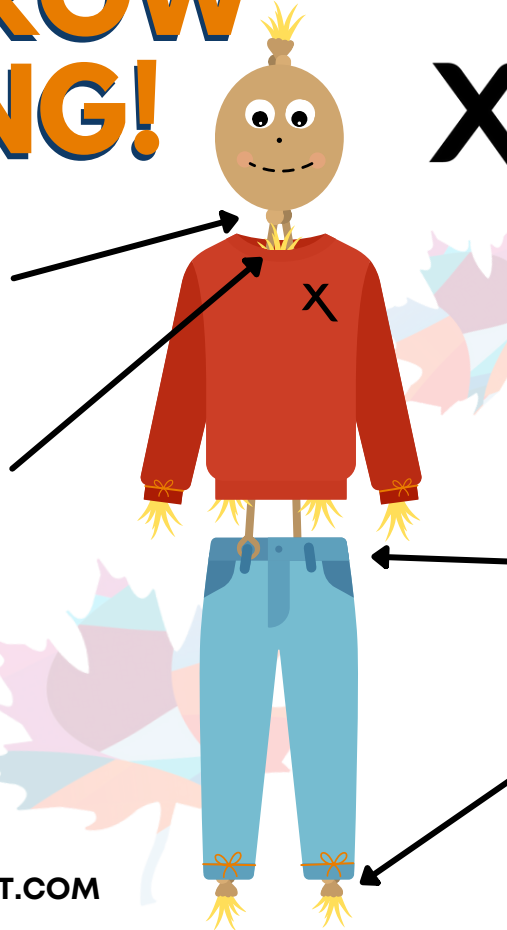

Tie a knot in the pantyhose legs so they look like the picture. Stuff head with straw, then tie the head closed (it can be left open for a different look).

STEP TWO:

Pull pantyhose legs through the shirt's collar and down through the bottom so the scarecrow head is tightly held at the collar.

STEP THREE:

Completely fill the shirt and pants with straw. Twine can be used to tie wrist and leg openings closed.

STEP FOUR:

Tightly pull pantyhose legs through the front and rear belt loops on the pants to bring the head, shirt, and pants together. Tie pantyhose legs around the belt loops to form knots and complete the scarecrow.

STEP FIVE:

Pantyhose legs can also be pulled through the pant legs and knotted at the feet.
